Type C to Type C Cable

FAST CHARGE NO HASSLE

Type C-Type C Cable

The ADATA Type-C to Type-C fast charging transmission cable supports USB Power Delivery and maximum QC charging of 100W, complies with the USB 2.0 standard, has a maximum transmission speed of 480Mbps, combines charging and transmission functions, and is suitable for a variety of devices including Laptops, iPhone 15 series smartphones, Android phones, tablets, handheld game consoles and Bluetooth headsets, etc. The cable is made of strong, highly wear-resistant woven nylon fiber, can endure 20,000 bend test cycles, and is durable under pressure. It is your best companion for charging and transmission.

100W Quickly Charges Laptops

This Type-C to Type-C fast charging transmission cable can support a maximum power output of 100W, making it easy to fully charge a laptop quickly.

Supports USB PD3.0 & QC3.0 Fast Charging

Supports USB Power Delivery and QC charging with fast charger at a maximum charging power of up to 100W. It is suitable for a variety of devices including laptops, iPhone 15 series smartphones, Android phones, tablets, handheld game consoles, and Bluetooth headsets.

Smart Chip for Added Safety

An E-marker chip is embedded in the Type-C charging cable which monitors charging status and intelligently adjusts the current supplied to different devices, effectively stabilizing overall charge quality and ensuring the safety of the charging cable.

Nylon Weave Tested to 20,000 Bends

The outer layer of this Type-C charging transmission cable is strong, highly wear-resistant braided nylon fiber. Its wire core is specially selected to withstand high current and is made of large-diameter tin-plated anti-oxidizing copper, which can isolate electromagnetic interference and reduce noise. This structure improves the transmission efficiency of data and power and has passed 20,000 bend and insertion test cycles, giving it enhanced durability.

2-in-1 Transfer & Charge

This cable meets the USB 2.0 standard with a maximum transmission speed of 480Mbps. This one cable charges and transfers data, declutters your desktop, frees up connections, and reduces the number of items in your backpack.

Features

- Supports USB PD3.0 and QC3.0 up to 100W fast charging.
- Supports charging of multiple devices including laptops, iPhone 15 series smartphones, Android phones, tablets, handheld game consoles, Bluetooth headsets, etc.
- The built-in E-marker chip monitors charging status and adjusts current to ensure safe charging.
- Passed 20,000 bend test cycles for excellent durability.
- Transmission speed complies with the USB 2.0 standard, reaching 480Mbps, and is a two-in-one transmission and charging cable.

Specifications

- Interface: USB-C
- Color: Black / White
- Length: 200cm
- Weight: 22.95g
- Texture: Nylon braided
- Transfer Speed: 480Mbps
- Power Charging: 5A
- Warranty: 1 year
