• 4x 120mm pre-installed reverse blade fans plus an additional 1x 120mm regular fan for certain models.

• Utilizes a newly designed cable management channel and comes pre-installed with 5 XPG cable straps, leaving 36mm of space for easy installation of ATX / mATX motherboards and cable management.

• Supports motherboards with connectors on the back, allowing for easier installation and cable management.

Convenient Cleaning and Installation

INVADER X showcases your build's components and vibrant RGB lighting through bezel-less tempered glass panels. Its sleek design offers convenient visibility, while the magnetic dust filter ensures easy maintenance.

Next Gen Ready

It supports graphics cards with a length of up to 400mm and 240mm long power supply unit, allowing for high-wattage models. INVADER X offers gamers freedom in their choice of components with lots of room for customization and experimentation.

Install GPU Vertically Or Horizontally

You can install your graphics card vertically or horizontally with the included GPU mounting brackets, providing flexibility and visually appealing configurations.

4x 120mm pre-installed reverse blade fans

INVADER X comes with 1x regular fan and 4x 120mm Reverse Fan; this case excels at drawing in cool air from the bottom and right side of the chassis.

3.5" HDD / 2.5" SSD

Enhanced Cooling for Better Performance

Supports cooling configurations with up to 10x 120mm fans and 360mm radiators on the side or top.

Supports the Latest Motherboards

INVADER X provides convenient installation for back-plug motherboards. It adopts a brand-new design with an integrated wiring channel and comes pre-installed with five XPG cable management straps, reserving 36mm of space for cable management. This allows you to easily manage cables and provides a wider installation area for motherboards inside the chassis.
