THE SABER'S EDGE

CMP 510

With a construction that provides generous airflow and a stream of light, the **CMP 510** boasts a glowing ARGB edge to adorn the front panel. Mesh makes up a substantial portion of its structure to provide optimum performance potential.
Liquid-cooling support and the capability to house a total of 6 fans ensures the CMP 510 is always ready for thermal upgrades. Graphics card clearance spans 350mm to support the latest, largest cards.

The PSU shroud is also ventilated, offering options of mounting actively cooled units while also supporting passively cooled PSUs.

FEATURES

ARGB Strip – A glowing ARGB edge is cut into the clean geometry of the front panel design.

Large Filtered Intake – The front panel is constructed with a substantially large, unrestricted intake grill to provide superb airflow to the system.

Versatile Cooling Options – Support for up to six fans and front, top, and rear radiator support ensure that performance is not compromised.

Full Black Coating & PSU Cover – Let your system stand out with an all-black background and a PSU cover to hide cables.

Breathable Power Supply Shroud – The PSU cover is ventilated on top of the power supply location, this allows actively cooled units to be installed either with the fan facing the top or bottom, also with the possibility of installing passively cooled power supplies.

Room For Upgrades - Support for up to a 350mm graphics card, a 162mm CPU cooler, and multiple fans/radiators locations provides room for upgrades to stay ahead of the game.
