

LESS PAIN, MORE GAIN

The MM710 is a truly innovative mouse that does more with so much less. Along with all the pro-grade features that make our gaming mice deadly in combat, we've also implemented a striking new shell design and a deceptively durable Ultraweave cable to trim the overall weight of the mouse to less than 53g. The result is quicker movements, longer gaming sessions, minimal fatigue, and less wrist pain associated with repetitive stress injury.

FEATURES

- **Lightweight Honeycomb Shell** - New perforated housing is engineered to be supremely durable and lightweight, meaning you can play longer without fatigue
- **Ultraweave Cable** - Innovative Ultraweave cable significantly reduces weight and cable pull while swiping. Fight against your enemies, not cable pull.
- **Gaming-Grade Optical Sensor** - Adjustable up to 16000 DPI for greater control, precision, and future-proofing
- **Ergonomic, Ambidextrous Shape** - Optimized for right-handed gaming with two extra buttons for added convenience
- **No Software Required** - All settings can be adjusted via the On-the-Fly System with simple button combos
- **High Grade Quality** - OMRON switches for left and right click are graded for 20 million presses that remain accurate and true till the end

FEATURE HIGHLIGHT

Ultimate Lightweight Design – Minimal weight with honeycomb shell design and structural optimization, making it feather light.

Classic Ambidexterous Shape – The MM710 uses the fan favorite MasterMouse S shape, making it suitable for palm, claw, and fingertip.

UltraWeave Cable - No more playing tug-o-war with your mouse. The UltraWeave cables feels wirefree with clean swipes, flicks, and drags – without feeling cable pull.

PTFE mouse feet – New-and-improved feet made with PTFE material for low friction and high durability, which provides a smooth, fast glide with maximum responsiveness.

Make It Yours.
