SPECIFICATION & PACKING INFORMATION

FEATURES

• Premium Comfort with Cooling Performance

Cooler Master Caliber X2C enhances the overall comfortability of your workstation by reducing chair to player heat exchange and humidity build-up that lead to sweatiness during long hours of gameplay.

• Cool-In Technology

Caliber X2C feels 1-2° degrees cooler than a regular gaming chair. Our Cool-In fabric Tech with "Jade Powder" particles in the yarn helps improve heat dissipation. The unique star-shaped yarn design makes Caliber X2C breathable, absorbs moisture, and allows evaporation which are key to staying dry and cool.

• Superior Durability

The Cool-In Fabric Tech also provides extra benefits of cat scratch-proof and a dust repellent and easy-to-clean surface for daily usages.

• Comfortable Ergonomic Workstation

Caliber X2C ergonomic design meets the individual's needs with a comfortable range of the reclining backrest. The multi-adjustable upgraded 4D armrests and height adjustable gas lift minimize fatigue and maximize the comfort of your work/play sessions.
